This volume explores English medium instruction (EMI) in non English speaking countries examining its growth government support and diverse perspectives it identifies strengths and shortcomings of EMI programs ideologies and methodologies offering evidence based implications for practice policy and research

Novel perspectives on German language comics studies history pedagogy theory gathers an international team of contributors from two continents whose innovative scholarship demonstrates a regard for comics and graphic novels as works of art in their own right the contributions serve as models for further research that will continue to define the relationship between comics and other traditional high art forms such as literature and the visual arts Novel perspectives on German language comics studies is the first English language anthology that focuses exclusively on the graphic texts of German speaking countries in its breadth this book functions as an important resource in a limited pool of critical works on German language comics and graphic novels the individual chapters differ significantly from one another in methodology subject matter and style taken together however they present a cross section of comics and graphic novel scholarship being performed in North America and Europe today moreover they help to secure a place for these works in a globalized culture of comics this volume's contributors have helped create a new critical language within which this rapidly expanding medium can be read and interpreted

Developmental theorists have struggled with defining the relations among biology psychology and sociocultural context often reducing psychological functions of a person to either biological functioning or the role of sociocultural context nature or nurture and considering each area of human development separately new perspectives on human development addresses fundamental

questions of development with a unified approach it encompasses theory and research on cognitive social and moral and language and communicative development in various stages of life and explores interdisciplinary perspectives new perspectives on human development revisits old questions and applies original empirical findings offering new directions for future research in the field

with the revived use of film noir by such contemporary directors as scorsese altman and the coen brothers there has been heightened public and academic interest in the film noir as a genre movement and style in this perspectives volume french theories of film noir are discussed with translations of key book reviews essays and articles anglo american theory and criticism especially scholarship from the 1980s illuminates social literary and philosophical contexts of film noir in the 1940s and the revival of its themes style and subject matters in the 1970s and 1980s

this book engages in a critical reading of cultural knowledge by cultural knowledge i refer to cultural dimensions as introduced by geert hofstede edward t hall and fons trompenaars their research has manifold been taught to individuals who will face an intercultural setting in their business career at some point in the future it aims to create understanding for cultural differences in order to decrease emotional discomfort and enhance business success of those who acquire the knowledge at the same time it claims to present a foundation for respect for cultural differences since it gives an imaginative room to them if one studies the knowledge s he will be aware of cultural differences and therefore treat them with respect the book is composed of two perspectives on cultural knowledge in a first step the book turns to post colonial theory post colonialism argues how a western perspective has framed cultural identities and how these representations are flawed by colonial thinking in a second step a levinasian perspective is taken on cultural knowledge the french philosopher emmanuel levinas was deeply concerned with our way of approaching the other he understood the other to be incomprehensible to our understanding the other s otherness cannot be grasped by framing her him into categories he argued that every encounter is of ethical nature and encouraged each individual to show infinite responsibility towards the other that is not confined by any pre knowledge the book concludes that cultural knowledge has been exposed to significant limitations these limitations are mainly a product of control interests individuals who acquire cultural knowledge and are not made aware of its limitations face consequences that may compromise their respect for cultural differences even though cultural knowledge presents itself as foundation for respect it prioritizes understanding for the sake of control as a consequence respectful representations are not given and respect for cultural differences is only supported as long as it does not threaten control ultimately this book shall present a plea for trainers and teachers of cultural knowledge to become acquainted with the limitations reflect on them and forward this knowledge to their students it shall also encourage researchers of cultural differences and other scholars to reflect and perhaps improve on it

rules about sexuality written and unwritten have existed in every culture as have disagreements over what is and isn t acceptable must morally permissible sex have only one function must it be heterosexual must it occur within the confines of the institution of marriage must it be accompanied by requisite emotions such as love and intimacy

this important volume contains 36 chapters from such varied sources as u s government publications scientific journals and other relevant works together these articles offer a uniquely comprehensive discussion of water its place in the environment its uses problems and hazards and its regulation by law management procedures and the economy the authors present a rational approach to current problems and potential difficulties stating the issues clearly without ignoring their complexity it is crucial reading for undergraduates and graduate students of water resources in departments of geology geography and environmental science as well as for hydrology students in departments of civil engineering geology and agriculture
