conductors john yaffé and david daniels have created a one stop sourcebook for orchestras opera companies conductors and librarians who research and or prepare programs of vocal excerpts such as solos ensembles and choruses for concert performance in this book readers will find detailed information on a vast repertoire of vocal pieces commonly extracted from operas operettas musicals and oratorios more than 1 750 excerpts from 450 parent works modeled on daniels orchestral music arias ensembles choruses includes basic historical details about each parent work as well as extract titles subtitles voice types keys durations locations in the original work with page numbers in both full scores and piano vocal scores and exact instrumentation it also lists the publishers that make available the orchestral materials for just the excerpt being programmed independent of the full parent work until now conductors and orchestra librarians commonly had to first leaf through full scores searching for one elusive three minute aria after another only to then consult multiple publishers catalogues to compile crucial information on all the excerpts proposed for a concert or recording this book constitutes a single source for finding that information in many cases the individual entries include valuable insider information on common performance practice including start and stop points transpositions and conventional cuts searching for repertoire is made easy with the detailed title index and appendixes devoted to ensemble excerpts all categorized by personnel e g duets trios quartets quintets sextets choruses and language czech english french german italian latin russian this book is the ideal tool for the working conductor and orchestral librarian as well as music program directors at colleges and conservatories opera companies and symphony orchestras as of october 2015 a new printing of this book has occurred to correct errors in the index a pdf version of the new index is available to previous purchasers of the volume please contact rowman littlefield s music editor for assistance

michael steinberg s highly successful listener s guides the symphony and the concerto have been universally praised for their blend of captivating biography crystal clear musical analysis and delightful humor now steinberg follows these two greatly admired volumes with choral masterworks the only such guide available to this most popular of musical forms here are more than fifty illuminating essays on the classic choral masterworks ranging from handel s messiah bach s mass in b minor and beethoven s missa solemnis to works by haydn brahms mendelssohn

and many others Steinberg spans the entire history of classical music from such giants of the romantic era as Verdi and Berlioz to leading modern composers such as Elgar, Rachmaninoff, Vaughan Williams, and Stravinsky to contemporary masters such as John Adams and Charles Wuorinen. For each piece Steinberg includes a fascinating biographical account of the work's genesis, often spiced with wonderful asides. The author includes an astute musical analysis of each piece, one that casual music lovers can easily appreciate and that more serious fans will find invaluable. The book also provides basic information such as the various movements of the work, the organization of the chorus and orchestra, and brief historical notes on early performances. More than twenty million Americans perform regularly in choirs or choruses. Choral masterworks will appeal not only to concertgoers and CD collectors but also to this vast multitude of choral performers, an especially engaged and active community. What sets Steinberg's writing apart is its appealing mixture of impregnable authority; he knows this music and purely personal asides. By the end of the book, we know this man. Choral masterworks can be read by anybody, from a professional musician to any young listener newly braced by the stoic pessimism of the Brahms German Requiem. Washington Post Book World

Choral orchestral repertoire: A conductor's guide. Omnibus edition. Offers an expansive compilation of choral orchestral works from 1600 to the present, synthesizing Jonathan D. Green's earlier six volumes on this repertoire. This edition updates and adds to the over 750 oratorios, cantatas, choral symphonies, masses, secular works for large and small ensembles, and numerous settings of liturgical and biblical texts for a wide variety of vocal and instrumental combinations. Each entry includes a brief biographical sketch of the composer, approximate duration, text sources, performing forces, available editions, and locations of manuscript materials, as well as descriptive commentary, a discography, and a bibliography. Unique to this edition are practitioner's evaluations of the performance issues presented in each score. These include the range, tessitura, and nature of each solo role and a determination of the difficulty of the choral and orchestral portions of each composition. There is also a description of the specific challenges, staffing, and rehearsal expectations related to the performance of each work. Choral orchestral repertoire is an essential resource for conductors and students of conducting as they search for repertoire appropriate to their needs and the abilities of their ensembles.
